WORK EXPERIENCE

1. Web Application Developer
   2021: May – October   *Company Name: Pokocart Pvt. Ltd.*

   Responsibilities:
   - Converting XD design to code using React, Next Js and MUI.
   - Integrating frontend with backend service.
   - Creating and maintaining API's in Express Js for account and product services.

MAJOR PROJECTS

1. Official Website of Vice Principle of Tri-Padma Vidyashram SS
   For the frontend, I used Next Js, Redux, RTK Query, and MUI.
   For the backend, I used DRF with PostgreSQL database.
   Visit at: https://www.dhanbahadurkandangwa.com.np/

2. Project Blooog
   It is my solo project for users to read and publish blogs.
   For the frontend, I used Next Js, Redux, RTK Query, and MUI.
   For the backend, I used DRF with PostgreSQL database.
   Visit at: https://project-blooog.vercel.app/

3. Pokocart E-commerce Site
   This is my first big project where my team and I build an E-commerce web app. For the frontend, we used Next Js, Redux, and MUI. For the backend, we used Express Js with MongoDB database.
   Stack Used: MERN
